NLIS SHEEP & GOAT TAG OPTIONS

RFID TAG OPTIONS

RAPIDTAGS

One side of the tag is printed with the official RFID Information, see below, the other side can be printed with either a number range, or up to two lines of text as nominated by the producer. If no marking is specified for the non-official side, the tag will be marked 'DO NOT REMOVE'. Refer to NLIS RFID RapIDTag Sheep / Goat Order Form for further information.

LIGHTWEIGHT TAMPERPROOF TAGS

The RFID tag is printed with the NLIS Logo and the RFID Information, see below. The matching male button is stamped with the corresponding Unique Management Number, together with either "DO NOT REMOVE" or up to 16 characters of text, as nominated by the producer. Refer to NLIS RFID Two-Piece Sheep / Goat Order Form for further information.

RFID INFORMATION

Externally marked with a 16 character NLIS Number: ABCD2345 - PIC (Property ID Code). **X** - NLIS Code to identify the manufacturer. **S** - NLIS Code to indicate device type (S = Sheep Breeder, T = Sheep Post Breeder, K = Goat Breeder & L = Goat Post Breeder). **M** - BREEDPLAN Year Code to indicate year of manufacture; cannot have year codes 'o' or 'i'. (M = 2016, N = 2017, P = 2018) **A0001** - Unique Management Number. The producer can specify this number sequence; first character can be alpha or numeric, numbers cannot be repeated within a calendar year.

Internally coded with a 15 digit globally unique RFID Number: 982 - Allflex Manufacturer Code. **000000179445** - Globally Unique Number.
