Get The Allflex Advantage

Allflex has more experience in livestock identification than any other manufacturer and we're committed to helping people with high quality products needed in the livestock industry. For products that exceed industry standards for performance, you can rely on Allflex. As an Allflex customer, you'll benefit from a proven track record for innovation, new products and unparalleled product delivery and service.

Innovation: From pioneering electronic identification systems and creating the first custom, laser Ink, marked visual identification tag, to leading the industry in tamperproof tags, to laser-ink marking, Tissue Sampling Units and animal health monitoring, we're dedicated to finding new and better products for the market we serve.

New Products: We consistently introduce new and improved products based on sound manufacturing and an understanding of how those products need to perform in real-world conditions.

Service: Count on Allflex's professional field sales, customer service and technical staff who will help identify the right solution for specific operations and share best practices to achieve the maximum in product performance. You can count on reliable supply and delivery ... which means producers will have the tags and equipment when they need it.

For questions about these products or how to get started, contact Allflex at 1-800-989-TAGS (8247) or visit www.allflexusa.com.

*Animal Intelligence, **For Life**™*

With over 60 years in the animal identification business, we've been involved in some of the most important technology advances in our industry: from laser-ink marking to electronic ID and from tissue collection to our venture with SCR animal health monitoring.

We provide the tools to manage cows in more ways than ever before.

Global Tags for Cattle

YELLOW RED GREEN

PINK BLUE CLASSIC PURPLE

ORANGE WHITE BLACK
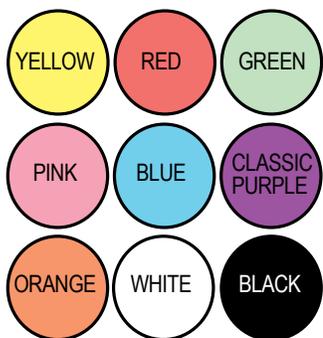

Allflex Global Tags are packaged standard in sets of 25 – blank or numbered sequentially. Other tag combinations are available upon request.

BLACK *tags available in Super Maxi, Maxi and Large Female only. Black tags are laser marked with white characters.*

CLASSIC PURPLE *available in Maxi and Large Female only*.

Global Super Maxi Female

- Used primarily for mature cattle
- Laser-ink management number standard
- Largest panel for management information
- Highly visible from both front and back
- Especially useful in cold climates for animals with longer hair
- Packaged standard with Global Small Male

Global Maxi Female

- Our most popular size for both mature cattle and calves
- Laser-ink management number standard
- Excellent for beef and dairy cattle
- Packaged standard with Global Small Male

Global Large Female

- Used primarily for calves
- Laser-ink management number standard
- For use in beef and dairy cattle
- Packaged standard with Global Small Male

Global Large Male

- Best used for beef and dairy cattle
- Provides visibility from behind an animal
- Can be used in combination with any Allflex Global Female tag
- Packaged standard without female tags (quantities of 25)

Global Super Maxi Female
Size: 4 ^{5}/8" high x 3" wide

Product Code: GSXF/GSM

Global Maxi Female
Size: 4" high x 3" wide

Product Code: GXF/GSM

Global Large Female
Size: 3" high x 2 ^{1}/4" wide

Product Code: GLF/GSM

Global Large Male
Size: 2 ^{3}/4" high x 2 ^{1}/4" wide
Product Code: GLM

2

YELLOW RED GREEN PINK

BLUE CLASSIC PURPLE WHITE ORANGE

Tamperproof™ Maxi Female (Ultra Cap™)
Size: 4" high x 3" wide

Product Code: GTXF/GSM

Tamperproof™ Large Female (Ultra Cap™)
Size: 3" high x 2 $^1/4$" wide

Product Code: GTLF/GSM
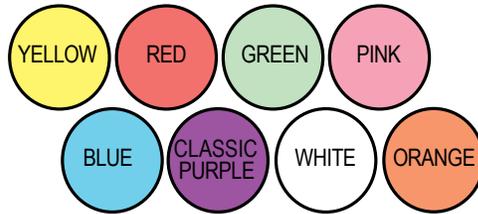

Patented Allflex Tamperproof™ ear tags offer the foremost security in livestock identification and management.

- Tamperproof™ tags are ideal for Official Registration and Certification Programs, as well as Official ID markets
- Allflex Tamperproof™ Female tags feature either the exclusive Ultra Cap™ or the Rotaclip™ design
- Can be used in combination with any Allflex male tag
- Packaged standard with Global Small Male

Tamper-evident Small Female (Rotaclip™)
Size: 1 $^3/16$" diameter
Product Code: GSTF

Allflex's Exclusive Ultra Cap™
Tamperproof™ Maxi Female and Tamperproof™ Large Female
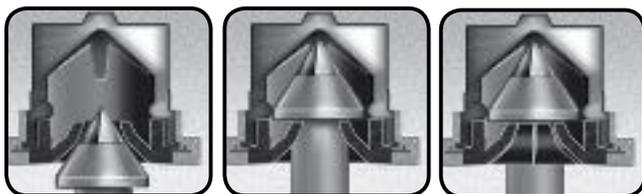

1 On entry into female, the male tip forces the exclusive Ultra Cap™ to spring open inside.

2 When tip has fully entered, Ultra Cap™ snaps back to lock tag solidly in place.

3 Ultra Cap's™ hard ridge and female's molded ridge doubly secure tag. Ultra Cap™ allows female to turn on male stem to help prevent snagging.

Allflex's Exclusive Rotaclip™
Tamperproof™ Small Female

1 On entry into female, the male tip forces the exclusive Rotaclip™ to spring open inside.

2 When tip has fully entered, Rotaclip™ snaps back to lock tag solidly in place.

3 Rotaclip's™ hard ridge and female's molded ridge doubly secure tag. Rotaclip™ allows female to turn on male stem to help prevent snagging.

Identification for Swine

Piglet Tag   *LASER MARKING ONLY*

- Lightweight tag and unique metal-free tip – specifically designed for piglets from birth to 40 lbs.
- Enhanced plastics minimize the effects of biting and chewing
- Designed to avoid over-application and infection problems
- Durable laser marking
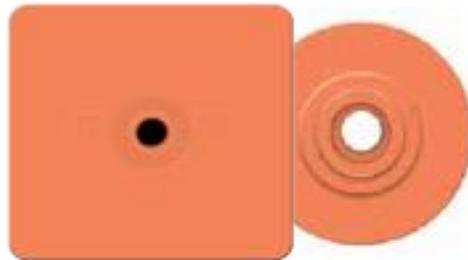

Piglet Tag
Size: 1 $^1/_4$" high x 1 $^1/_4$" wide
Product Code: PT/GSF

Integra™ Hog Male

- Large panel holds more management information
- Longer male stem allows for higher tag placement in ear
- Lays flat to resist snagging and chewing
- Laser-ink available on management numbers larger than 1/2"
- Used in combination with Global Small Female and Tamperproof™ Small Female tags
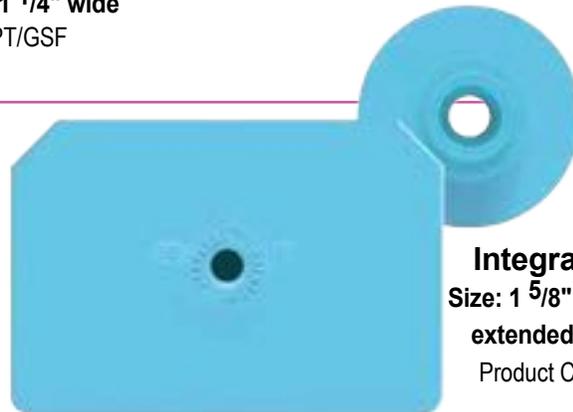

Integra™ Hog Male
Size: 1 $^5/_8$" high x 2 $^1/_4$" wide,
extended shaft, closed tip
Product Code: GIHM/GSF
GIHM/GSTF

Factory printed numbers are high resolution ink only.

Additional Custom Layouts Available

Allflex Hot Stamp Press

- Digital tag counter
- Stamps all types of Allflex Feeder tags
- Smaller, more compact
- Digital controls for temperature dwell time
- Controls are separate from the press
- Available by lease only

Tag Marking

Allflex 2-in-1 Marking Pens

- One pen with two marking tips (fine and broad)
- Easy-to-hold and easy-to-use pump action
- Fade resistant black or white ink
- Specially formulated for use on Allflex ear tags

Allflex 2-in-1 Marking Pens
Product Code: PEN

Product Code: PEN-WHITE

TIPS FOR MARKING

1
Wipe tag surface clean with isopropyl (rubbing) alcohol.

2
Mark tag indoors in a well ventilated area at room temperature. Keep the internal valve partially open by applying slight, constant pressure on the tip.

3
Write numbers and letters slowly for heavy inking and durable marking. Insufficient ink will cause the markings to fade prematurely.

4
Mark at least two times, allowing for proper drying between markings for best results.

5
If possible, dry tags in a warm, sunny area as this enhances ink penetration. Allow mark to dry thoroughly before tagging animal.

Patented Laser-Ink Marking

- Laser-ink marking allows for greater visibility of management numbers in livestock applications
- The patented marking process is exclusive to Allflex
- The durable laser mark is guaranteed to last the life of the animal

Allflex Custom ID is the Producer's Choice

- Your livestock management program may benefit from Allflex Custom ID

- Allflex offers permanent, customizable markings on premium quality 2-piece Global, Tamperproof™ and ATag™ one-piece tags with Laser and Laser-Ink Marking

- There are multiple customization options available giving you the flexibility to create something as simple or complex as you need

- Tag colors and marking options will vary depending on tag selection

Customize Your Information

- Producers can use a variety of information fields available on different tags to truly customize their identification

- Use identification to measure what matters on your livestock operation

- Custom ID tags can include:
    - Brands and other images
    - Combinations of letters and numbers including farm or ranch name and location
    - Reverse side markings on the back of the tag
    - Custom numbering that's tailored to your management program
    - Birth dates and years
    - Sire and dam information

Premium Black Tags

- Allflex Producer's Choice Custom ID™ includes premium black ear tags in three Global Tag sizes: Super Maxi Female, Maxi Female and Large Female

- The premium black tags feature permanent white Allflex laser marking

- Black Allflex Global Small Male Tags are available blank as a matching companion or to contrast with other Allflex Global Tag colors

Tag Applicators and Accessories

Universal Total Tagger

- A must for applying Allflex 2-piece Global Tags
- Also use to apply Allflex Tamperproof™ and EID Tags and most major brands of insecticide tags
- Deep jaw makes proper placement easier
- Grip is designed to ease hand fatigue from repeated use
- Replacement applicator pin located in handle
- Black Clip Included

US OFFICIAL AIN TAGS

Animal Disease Traceability System AIN Tags

The ADT program is a mandatory, cooperative Federal-State-Industry program, providing a standardized information system for Federal and State animal-health authorities to use in responding to animal-disease events in the United States.

In order to obtain AIN tags, producers must first register their premises and obtain a premises identification number (PIN) from their state animal health authority. A database record of specific AIN tags distributed to each premises is maintained, so producers should not share or make their AIN tags available to other producers.

Producers may apply the AIN tags at their convenience and at the time most suitable to their operation, but before an animal leaves their premises.

ATag™ Cow HDX
Product Code: HDX-840/ATAGX-COLOR-SET16

Premise Number or LID is required to purchase 840 tags, these can be obtained from your State Department of Ag.

Application site must be free of foreign debris prior to placement of tags on the animal. Review application instruction prior to tagging.

IMPORTANT: *Caution, "Free Air Space" is critical for proper healing and retention. Inspect placement after tagging to ensure there is sufficient space between ear and EID tag.*

FOR CATTLE

1. The EID tag should be placed in the middle of the ear between the two cartilage ribs close to the head.

2. The female portion of the tag should be on the inside of the ear with EID tag application. Note that this is a thicker part of the ear. Application may be more difficult than when applying a visual tag.
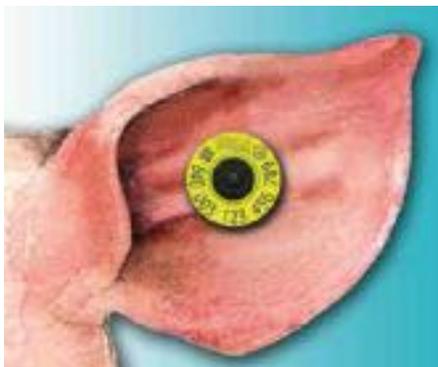

FOR SWINE

1. Place the EID tag in the middle or thicker part of the ear.

2. The male tag should be on the outside of the ear and the female (or EID tag) should be placed on the inside of the ear. Tag retention is improved when male tag lays flush against the back side of the ear.
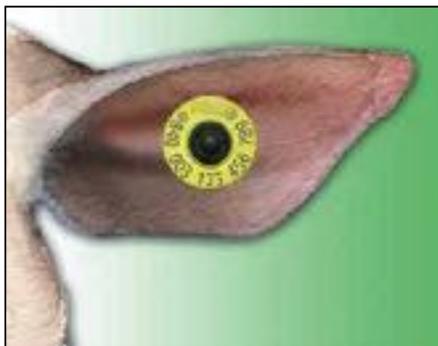

IMPORTANT: Tag application may vary based on breed type and ear size.

FOR SHEEP

1. Place the EID tag in between the cartilage ribs of the ear, near the first quarter of the ear (closest to the head).

2. The female portion of the tag should be placed on the inside of the ear.

Apply Allflex Electronic ID Tags with the Red Universal Total Tagger. Use the red blunt pin and remove the black insert from the base of the jaws.

Hooking the clip on a metal surface and pulling against it, is the best way to "pop" the clip out of the applicator.

JAW INSERT TO BE REMOVED IF APPLYING ELECTRONIC TAGS

Take care of your herd with
SCR ACTIVITY-RUMINATION MONITORING

**REAL TIME REPRODUCTION AND HEALTH INSIGHTS.
REAL TIME CONNECTION AND CONTROL. ANYTIME, ANYWHERE.**

❤ Health

- Identify sick cows **1 – 3 days sooner** than a physical evaluation*
- Minimize time spent watching for sick cows
- Determine and measure cow treatment using rumination data
- Reduce cow stress by lowering lock-up times

Based on recent Cornell study, "Use of rumination and activity monitoring for the identification of dairy cows with health disorders"

Health Index for Non ▲₁
42.6
53.3
59.8

Aleis FFW and Neck Bar Readers

Reading systems-Chuteside applications

Allflex SKU#: Aleis-FFW6000

Fixed Feedlot Wand (FFW)

- Designed to scan animals during processing at chute
- Viewable lights indicate when the device is turned on and in operation
- Flexible, retractable connection with removable wand
- Comes complete with External power supply
- No internal tag storage, sends RFID numbers direct to scale indicator, computer or handheld device with suitable software.
- Compatible with most major scales and software.
- Reads both FDX-B and HDX ISO 11784/11785 compliant EID products.
- Built to withstand the harshest of conditions.
- Also available with tag storage and "sync" capability in model Aleis-FFW8050

Allflex SKU#: Aleis-FFWNB9060

Neck Bars

- Designed to read cattle in chute
- Consists of two antennas mounted on the front of the chute
- Designed to read in the "HELD" position
- Includes a back-up wand-for improper positioned animals
- Storage of up to 100,000 RFID numbers
- External power supply
- Sends RFID numbers direct to scale indicator, computer or PDA
- Compatible with most major scales and software
- Reads both FDX-B and HDX ISO 11784/11785 compliant EID products.
- Designed specifically to handle chute reading conditions.

"FAST, ACCURATE AND EFFICIENT"

Antenna System

Allflex SKU#: Aleis-8152BT

8152BT - Single Antenna System

- Designed for use in load in/out alleyways or on a scale system.
- The panel has an Auto-Tuning function.
- Includes Removable Reader Box w/Bluetooth & 1200x600x21 Antenna.
- Comes with (2) built in 12VDC batteries housed just below the control box for remote usage.
- Visual Screen and Keypad allow the user to view tag data and change reader settings as needed.
- This unit will store up to 100,000 individual Electronic ID numbers and can be configured to compare EID numbers and send an Alert when a specific number is scanned.
- Reads both FDX-B and HDX ISO 11784/11785 compliant EID products
- Reader includes Battery Charger, Data lead, USB Adapter, and User's Manual.

Allflex SKU#: Aleis-9162BT

9162BT - Single Antenna System

- Designed for use in load in/out alleyways or on a scale system.
- The panel has an Auto-Tuning function.
- Includes Removable Reader Box w/Bluetooth & 1200x600x21 Antenna.
- Comes with (2) built in 12VDC batteries housed just below the control box for remote usage.
- Visual screen and QWERTY keypad allow the user to view tag data, input data in up to four configurable fields and change reader settings as needed.
- This unit will store up to 100,000 individual Electronic ID numbers and can be configured to Compare EID numbers and send an alert when a specific number is scanned.
- Reads both FDX-B and HDX ISO 11784/11785 compliant EID products
- Reader includes Battery Charger, Data lead, USB Adapter, and User's Manual

Allflex SKU#'s: Aleis-Multi A and Aleis-Multi B

Dual Panel Antenna Systems

- Designed for "High Volume" load-in and load-out of animals
- Two antennas, 1200x600x21mm or 900x450x21mm
- External power supply
- Sends RFID numbers direct to scale indicator, computer, hand held device or sent to remote data storage box.
- Compatible with most major scales and software.
- Reads both FDX-B and HDX ISO 11784/11785 compliant products

All panel antennas require a site survey from our sales staff or technical department and are installed by our technical team.

Managing EID Data

The Allflex EID Tag is a crucial part of an electronic identification system. As such, the tag is simply the first of four elements needed for complete data collection and management. Data collection systems are varied and constantly evolving. They typically include:

1 **EID Device**
(Allflex High Performance Tamperproof EID Tag)

2 **A Reader**

3 **Software**

4 **A Computer or Livestock Scale Indicator**
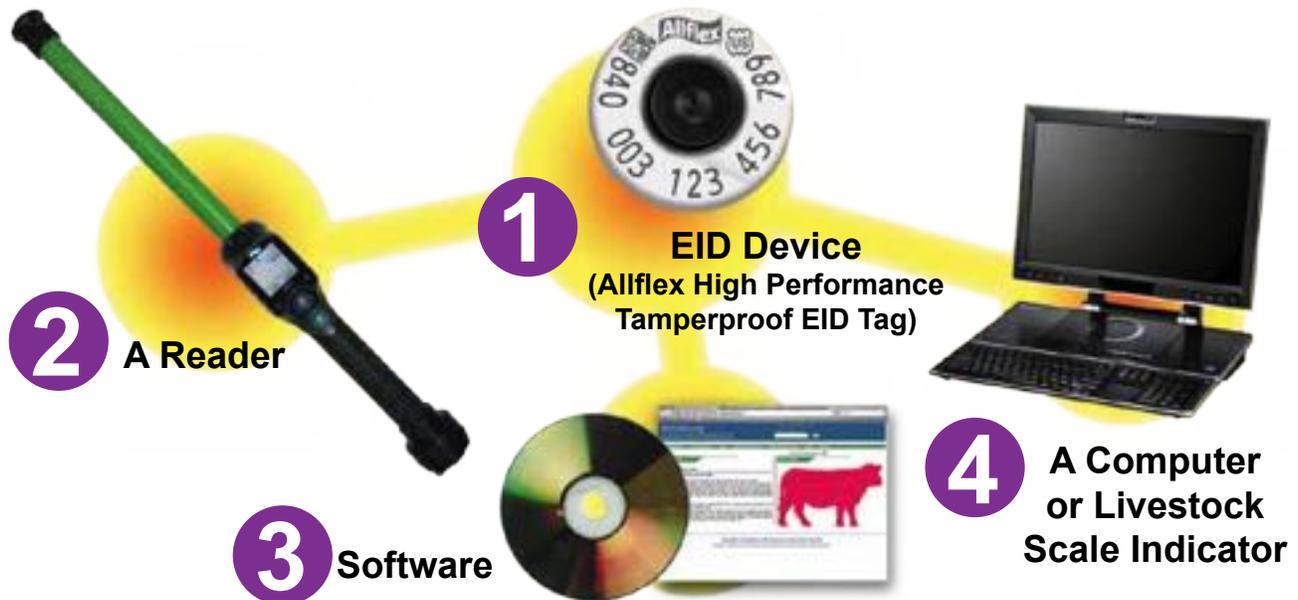

EID Tag Manager software can be downloaded on our website at www.**allflexusa.com**

Allflex EID Tag Manager Software allows the Allflex Reader user to manage basic reader functions and download EID tags

- To manage an Allflex Reader connected to a PC thru serial ports, USB to Serial or Bluetooth connection
- To download tag data stored in an Allflex Reader and save the file in Excel or Word documents
- To use EID tag manager as a wedge program to scan EID numbers directly into Excel, Word or other application
- To reduce data entry when associating EID numbers with management numbers by using web link to download EID tag numbers

Easy Steps Tag/TSU • Lookup User's Guide

Finding Your Tag/TSU Numbers

Step 1. Navigate to www.allflexusa.com and Find Tag or TSU Numbers.

Find Tag or TSU Numbers

Step 3. You may also enter **Multiple Bag#s**. Hit <enter> between the bag#s or copy and paste a list from a text or Excel file

Step 4. Click on Lookup

Step 5. The numbers you entered will show green on the grid after you click on Lookup, as shown
You are now ready to download your numbers
You can expand the green rows and see details by clicking on the plus sign
Only rows selected in green will be downloaded

		Bag#
+		1000029338
+		1000029349
+		1000029350
+		1000029361
+		1000029372
+		1000029383

Step 2. Locate the Master#, Pallet#, Case#, Bag# or Tag# on labels as shown and enter them induvidually

Easy Step Instructions
Enter Master#, Pallet#, Case#, Bag# or Tag# or enter multiple bag numbers.

Master#, Pallet#, Case#, Bag# or Tag#

C1000228330

Multiple Bag #s

1004374780
1004374791
1004374805
1004374816
1004374827

Lookup

* = Bag(s) Not Found

Master#, Pallet#, Case#, Bag# or Tag#

Multiple Bag #s

Bag(s) Not Found
Bag(s) Not Found are marked with an * in the list. You can fix the entry and resubmit by clicking Lookup and/or proceed with the selection

1000029338
1000029349
1000029359*
1000029361
1000029372

Lookup

Downloading Your Tag/TSU Numbers

Step 6.

Select the file type and format in which you would like your numbers to be saved.
CSV = comma separated value
XLS = Excel spreadsheet
XML = web document

Select File Type and Format and Click Download

⦿ CSV ○ XLS ○ XML

Original ▾

The selected format contains: Bag#, Eid#, Mgmt#, Reg#

Download

Step 7.

Click download and open or save to your computer

Internet Explorer:

Do you want to open or save VBags_11_5_2015_11_21_52_AM.CSV from allflexlink.com   Open | Save ▾ | Cancel | ✕

Allflex – Tissue Sampling Technology

Collecting tissue samples has never been more efficient and cost effective. Scientific advancements in the mapping of livestock genomes along with continued development of affordable analytics has changed the sampling industry – making it easier and quicker for producers to use DNA for:

- Parentage verification
- Genetic selection
- BVD diagnostics

- Fast, high performance sample collection … Samples can be collected in seconds with minimal animal restraint. A single-squeeze motion collects a sample with minimum distress to the animal.

- Clean, uncontaminated sampling … The genetic material is sealed in a specially designed preservative.

- Visual, DNA-sample identification … Instant confirmation of on-farm sampling success. No more guessing whether enough genetic material has been gathered.

- Minimize retesting … Tissue samples contain a large quantity of high quality DNA for genetic analysis yielding excellent lab results.

EM Syringes

UV Protection

2EM & 5EM Tube Fed Syringes

- Accurately delivers selected dose
- Easy V-grip for high volume use
- Metal Luer Lock tip
- Removable barrel for cleaning
- Durable plastic design
- Amber-colored barrel and tubing reduce UV sunlight exposure

2EM
(Adjustable dosage from .25ml to 2ml)

Product Code: 2EM

5EM
(Adjustable dosage from .5ml to 5ml)

Product Code: 5EM

LD.3EM, 2EM & 5EM Bottle Fed Syringes

- Automatic self filling with bottle attachment
- Heavy-Duty Bottle Cage for bottle protection
  (50ml & 100ml bottles only)
- Accurately delivers selected dose
- Easy V-grip for high volume use
- Metal Luer Lock tip
- Removable barrel for cleaning
- Durable plastic design
- Amber-colored barrel reduces UV sunlight exposure

LD.3EM-BT
(Adjustable dosage from .1ml to .3ml)

Product Code: LD.3EM-BT

2EM-BT
(Adjustable dosage from .25ml to 2ml)

Product Code: 2EM-BT

5EM-BT
(Adjustable dosage from .5ml to 5ml)

Product Code: 5EM-BT

2EM & 5EM Bottle Fed Syringe with Universal Bottle Adapter

- Automatic self-filling with universal bottle adapters
- Five Color coded "Universal Bottle Adapters" included
- Universal bottle adapters enable multi size bottles to fit on the syringe
- Metal Luer Lock Tip
- Removable barrel for cleaning
- Durable Plastic Design
- Amber Colored Barrel reduce UV sunlight exposure

2EM-BT-UBA
(Adjustable dosage from .25ml to 2ml)

Product Code: 2EM-BT-UBA-GRAY

5EM-BT-UBA
(Adjustable dosage from .5ml to 5ml)
Product Code: 5EM-BT-UBA-GRAY

Universal Bottle Adapters

Repeater Syringes

UV Protection

25MR2
(Adjustable dosage from .5ml to 2.5ml)
Product Code: 25MR2

50MR2
(Adjustable dosage from 1ml to 5ml)
Product Code: 50MR2

LR-BARREL
The LR Barrel is designed for use with extended release deworming products that require a specialized plastic barrel.

25MR2 & 50MR2
• Accurately delivers selected dose
• Easy grip for high volume use
• Barrel and needle attachment are fully autoclavable
• Streamlined design with fewer replacement parts
• Amber-colored barrel reduces UV sunlight exposure
• Color Knob Pack available to differentiate between medications

SPECIAL FEATURE

Color Code Injection Accuracy System

Interchangeable colored knobs let you dedicate a particular syringe to a selected vaccine or therapeutic compound to ensure proper administration and avoid mistakes.

Precision Instruments

Instrument Care

Care and Use

USING A TUBE FED SYRINGE

To attach a medication reservoir:

1

Attach one end of the amber tube to the syringe/drencher

2

Option 1: Attach the other end of the amber tube to the selected draw off cap

3

Option 2: Attach the other end of the amber tube to the 2.5 liter backpack

4
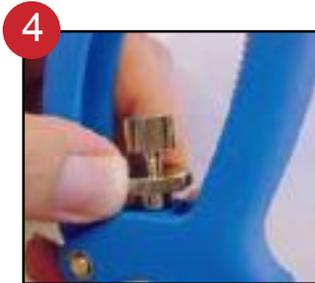

Loosen dose adjustment lock nut

5

Turn dosing adjustment screw to set the required dosage. Retighten lock nut

6

Handle spring pressure can be adjusted for comfort and tension

Frequently Asked Questions

Q Which models can be used as either a drencher or injection syringe?

A Allflex models 10VM and 20VM convert from injection syringes to drenchers. A drencher nozzle or needle holder is all that is required to make the conversion.

Q How do I sterilize my syringes?

A You can sterilize the most Allflex precision syringes by boiling the syringe, feed tube and draw-off cap at least 20 minutes. Suspend the items in the boiling water to prevent damage if the water boils away. Follow detailed directions on the actual syringe instruction sheet included with the syringe model you are using. Do not boil the 70ml Drencher (UKAL-70ml) or the 200ml Drencher (UKAL-200ML).

Q Can I use alcohol to sterilize my syringes?

A No. Alcohol damages the rings and valves in the syringe.

Q What size of needles should I use with the Allflex syringes?

A Needle size is determined by the species you are injecting and the injection site. All standard livestock needles can be used with Allflex syringes. If you have questions about which size needle to use, consult your local veterinarian.

Q Can I repair the syringe myself?

A Your Allflex dealer has repair and replacement parts available. Take special care to lay parts out on a clean white cloth for visibility, and replace parts exactly in the order they were removed.

Q How do I maintain and lubricate my syringe?

A To maintain the O-rings and valves, periodically lubricate the syringe with a small amount of olive oil or vegetable oil. Note: Do not use mineral oil, silicone, WD40, glycerin or alcohol. Petroleum-based products harden the rubber rings and valves, reducing the life of the components.

Allflex added Destron Fearing™ to our product line in 2012 to diversify our business with a proven brand and product. Look for Destron Fearing products at your local animal health store, distributor, catalog, online retailer or veterinarian.

Identify. Profit.

In 1945 Destron Fearing™ created the country's first commercially marketed visual identification tags for livestock. This is the foundation of today's animal identification solutions for producers worldwide.

Destron Fearing™ continues its tradition of leadership by manufacturing a range of innovative visual and electronic identification products, helping livestock producers reliably identify their animals and better manage their operations.

Panel Tags

Rugged, lightweight and available in a variety of fade-resistant colors, Destron Fearing™ panel tags are designed for superior retention, all weather performance and easy application when used with the ProGripII™ Universal Tag Applicator.

Custom Tags

Custom marking is available including Logos, Lines of Text and reverse side marking. Customized brands and images can be produced with a provided image.

Premium Performance RFID

Our e.Tags® are designed to provide optimal read range and superior cold weather application. Each contains a passive, ISO-compliant (134.2 kHz) RFID transponder encoded with a 15-digit identification number that can be read in millisecond by any Destron Fearing™ or ISO-compliant reader.

Dark & Durable Marking

Dark & Durable™ tag marking begins with the Destron Fearing laser mark that is etched into the tag surface using a computer guided laser beam resulting in a dark gray mark. The laser mark is then overlaid with black ink resulting in bold, black numbers.

INFECTA+GUARD® Infecta+Guard™ included on all stock tags.
