

A Powerful New Generation of Electronic ID Readers

Introducing The New Allflex® APR Series

More Capable. More Empowering.

Compact, convenient and versatile, this new family of handheld readers takes EID tags to the next level. Streamline processing. Increase record accuracy. See, hear and feel how each read is verified with light, sound and vibration. Upload scanned data quickly and easily.

The Allflex APR series – from the elite APR650 to the practical APR250 – will help you collect and use vital statistics of your herd.

APR650 - Reads EID tags and scans barcodes, so you can easily link any barcoded input, protocol step or DNA sample to the animal's EID number.

APR450 - Comes ready for an extended antenna, for a longer reach when reading tags.

APR250 - Delivers everything you expect from a compact, lightweight handheld reader.

Speed, Convenience, Accuracy

APR650 A Mighty Handy New Reader

Scan any barcode and EID tag, without writing down anything.

- Link EID to input barcodes
- Stores up to 1 million records
- Easy to upload to office

APR250 Modern Essentials

Compact EID reader, delivering a base of solid performance.

- Record actions in preset lists
- Store up to 100,000 ID numbers
- Easy transmission via Bluetooth or USB
