Part Code: OC000SEN4

Ultra Button Small
Part Code: OC000VBU3

Qwiksilver
Part Code: 806C

Purpose: Legally required to be inserted into a new calf's ear (the opposite ear to the Primary Tag) - does not have to be the same size or style as the chosen primary

Information Presented: Must show the crown logo, the country code, the herd mark and a six digit animal number - but may also show management information

Colours Available: Yellow / Blue / Green / Orange / Pink / Red / White / Purple

Ultra EiD Cattle Tags

EiD Senior Standard Print
Part Code: OC000UES1

EiD Senior Standard Print on Button
Part Code: OC000UES3

EiD Senior Management Print on Flag
Part Code: OC000UES2

EiD Button
Part Code: OC000EBU3

Purpose: Aids in the monitoring and management of livestock, giving the farmer total control and traceability of milking, feeding, and identification. Can not be used as primary tags but can be a secondary tag.

Information Presented: The tag must present the same information on the tag as the Primary tag. The EiD chip stores an individual animal number which can be read with an EiD stick reader. Using the EiD chip in conjunction with a stick reader and a weigh indicator can help improve monitoring and assist in management decisions.

Colours Available: Yellow or White

Tissue Sampling Tags

Ultra TST Button Small
Part Code: OC000TSB3

Ultra TST Senior Large
Part Code: OCTSS0001

Ultra TST Junior Medium
Part Code: OCTSJ0001

Purpose: To help eradicate Bovine Viral Diarrhoea from herds by taking a tissue sample when inserting the tag. The sample is then tested to determine the status of the animal. Can be used as primary (excluding button) or secondary.

Information Presented: Must show the crown logo, the country code, the herd mark and a six digit animal number

Colours Available: Yellow or White

Non Official Management Tags

Ultra Small Management Button
Part Code: UKMANVBU

Ultra Reusable EiD Management Button
Part Code: UKADM05EID

Ultra Senior Large Management
Part Code: UKMAN22

Ultra EiD Admin/Parlour Management Button (non-reusable)
Part Code: UKADM01

Ultra TST Management Button
Part Code: TSTMANBUT

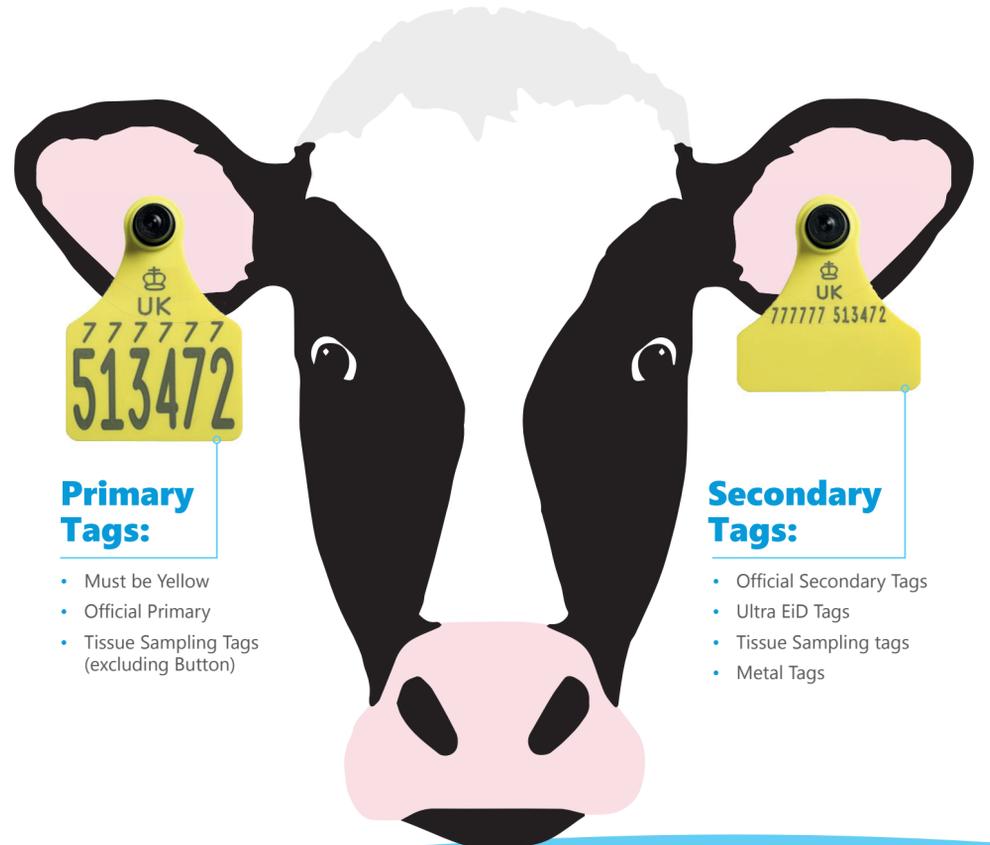

Ultra Junior Medium Management
Part Code: UKMAN23

Purpose: Assist in the management of animals, dependent on farmers wants.

Ideal for: breeding decisions, pedigree management, disease management, cull selection, health status and behaviour characteristics. They are an optional extra tag to add after primary and secondary.

Information Presented: Farmers choice of information (can be printed or left blank)

Colours Available: Yellow / Green / Pink / Purple / Orange / Blue / White (TST or EiD must be yellow or white)
